

SunLED

Battery light 50W

SunLED

The SunLED battery light is a robust and mobile battery light. Thanks to the robust casing and the tempered glass cover, it can be flexibly used in various industrial and workshop applications.

Due to the multi-step dimming, the light duration can last up to 10 hours. The luminaire is lightweight and connection-independent.

External devices such as mobile phones can be charged via a USB charging port. The modern lithium-ion battery used has no memory effect.

Product properties

- Brightness adjustable to 100%, 50%, 25%.
- Can be operated during charging
- USB port to charge external devices
- Full luminous flux, available immediately
- Long illumination time up to 10 hours
- Minimal temperature development
- No UV/IR radiation
- Shock and vibration resistant
- Power cable incl.

Technical data

System output	50W
Power supply	li-Ion battery, 13200mAh
charging plug	13V / 1.2A
USB out plug	5V / 1A
Light colour	6500K
CRI	>80 Ra
Light duration	up to 12 hr
Dimming levels	25% / 50% / 100%
Light duration	approx 2.5hr (100% light output)
	approx 5hr (50% light output)
	approx 10hr (25% light output)
Luminous flux	4000lm
Protection type	IP44
Protection class	III
Temperature range	-20°C to +50°C
Casing material	Aluminium
	Plastic
Cover	Hardened glass
Weight	approx 3.7kg
Dimensions (WxLxH)	295x342x112mm
