PERFECT VISIBILITY ANYWHERE, ANYTIME.

Mobile work lights make working more pleasant and are the perfect addition to hall or area lighting. The GIFAS productrange impresses with its robustness and high flexibility in practical use.

Work lights

911
LED-hand-held floodlight

The powerful 911 hand-held floodlight is now also available with the latest LED technology.

Product features

- Protective insulation, impact-resistant light body made from solid rubber with hanging ring
- Ergonomic handle with combination switch for constant light and pulsed operation
- Shatter-proof safety glass
- Combination ON/OFF switch and touch function

Technical data

Input voltage	230V, 42/24VAC
Power supply	Mains connection
Light source	6x2W LEDs
Luminous flux	1400lm
Protection category	IP54
Protection class	II / III
Housing	Solid rubber
Cover	Safety glass
Weight	1200g (without cable)

Item no.	Description	Supply cable	Plug
276195	24VAC/12W	5m 2x1.5mm²	CEE 16A/24V
274285	24VAC/12W	10m 2x1.5mm²	CEE 16A/24V
273643	42VAC/12W	10m 2x1.5mm²	CEE 16A/42V
279566	42VAC/12W	5m 2x1.5mm²	CEE 16A/42V
274286	230VAC/12W	3m 2x1.5mm²	230V protective contact

Accessories / spare parts	
105119	Rubber housing for light
105623	Toggle switch
110223	Spare front pane
274580	LED driver 24-42 VAC/DC for 911LED, without housing
270241	LED PCB for 911LED

911
Additional options

In accordance with applicable regulations, energy consumers with appropriate protective low voltages must be used in areas where there are conductive materials.

The combinationhalogen hand-held floodlight with cable reelis specifically ideal for use during inspection work in large boiler tanks, containers and similar vessels.

Important! The relevant application regulations must be observed while, before using these additional options.

Item no.	Description
278756	LED hand-held spotlight 911, 12W, on cable reel completely equipped with 20m supply line 2x1.5mm² on main role, toroidal transformer 230 / 24V-120VA installed, supply line 5m 2x1.5mm2 with contour plug on additional role
284235	LED handheld spotlight 911, 7.5W, on cable reel completely equipped with 20m cable, supply line 2x2.5mm² on main role, toroidal transformer 230 / 24V – 120VA installed, supply line 5m, 2x1.5mm² with contour plug on additional role
208768	Mobile security transformer, case type 2516 120VA, 230/24V
208628	Mobile security transformer, case type 2516 120VA, 230/42V

StabiLED
LED tubular light

☒ ⚠ ⚠ C E T

☐ dependent on description

Innovative lighting technology with increased safety is the base of our development for the StabiLED series. Outstanding light power with minimal energy consumption is its hallmark feature.

Product features

- Grip and cap made from insulating material with shock absorbing protection glas
- Glare-free work light distributed along a long length
- Built-in electronics with protection module
- Handy hanging device with rotating hook
- Unaffected by temperature fluctuations
- Oil, acid and ageing resistant, self-extinguishing

Technical data

Input voltage	230VAC, 42/24VAC/DC
Power supply	Mains connection
Light source	6x1W high-power LEDs
Luminous flux	2600lm
Service life	> 70000h
Protection category	IP55
Protection class	II / III
Housing	Solid rubber
Cover	Polycarbonate
Weight	250g (without cable)
Dimensions (ØxL)	60x500mm

Item no.	Description	Supply cable	Plug
256735	24V	5m 2x1.0mm^2	CEE 16A/24V
256738	24V	10m 2x1.0mm^2	CEE 16A/24V
256737	42V	5m 2x1.0mm^2	CEE 16A/42V
256739	42V	10m 2x1.0mm^2	CEE 16A/42V
256733	230V	5m 2x1.0mm^2	Contour plug

Work lights

PrimaLED 2
25W flood light

The PrimaLED 2 is a professional luminaire with high light output in combination with low evolution of heat and low energy consumption. This work light guarantees an optimum surface illumination through glare-free and evenly distributed light. In addition, the flood light offers various installation options for every application: hanging, lying or standing!

Product features

- Full light flux immediately available
- Low energy consumption with a high light yield
- Minimal temperature development
- Extremely switching-resistant (> 1 million)
- Maintenance-free
- No UV / IR-radiation
- Carrying handle also serves as a support which, when engaged, moves the lights to the desired position
- Impact and shock resistant, water and dust-proof

Technical data

Input voltage	230VAC, 24/42VAC/DC
Power supply	Mains connection
Luminous flux	4200lm
LED efficiency	165lm/W
Light colour	4000K
Lifetime	L70/B10 80000h
Protection category	IP65 (without socket)
	IP54 (with socket)
Protection class	I (230V with socket)
	II (230V without socket)
	III (24/42 V)
Temperature operating range	-20°C to +40°C
Housing	Polycarbonate
Cover	Satin-finish PMMA
Weight	3.1kg
Dimensions (WxHxD)	305x295x110mm

PrimaLED 2 with battery pack
The PrimaLED 2 is also available with a 6.000mAh battery pack.

Work lights

PortLED
Allround light

◈⚠⚠☐CE⊤

The PortLED is an all-round lamp for large-area illumination of work environments for indoor and outdoor use. The lamp is operated hanging. Operation is only permitted on the rubberized ribbon cable H05RNH2-F. The lamp can be flexibly positioned at any point on the cable using the clamp connector.

The impact-resistant and satin-finished polycarbonate (PC) cover minimizes glare and ensures even light distribution with high visual comfort. The high protection class IP66 protects the luminaire against the ingress of dirt and water. The cover is exchangeable.

Product features

- Low energy consumption with high light yield
- Minimum Temperature development
- Shock resistant and replaceable cover
- Shock and vibration insensitive
- Easy mounting on ribbon cable

BALL LIGHT
LED work light 360°

Item no. 333484

Item no. 333485

The powerful LED work light achieves up to 11,500 lumens and provides a beam angle of 360°. Thanks to the diffuse housing lens, the light provides glare-free and pure white light diffusion. The robust housing made of highly impact-resistant plastic can even withstand hard knocks. This is a basic requirement for any professional who relies on high-quality tools on a daily basis. A 5 metre connection cable enables flexible use. Various tools or machines (max. 3,000W) can be connected to additional Schuko sockets integrated into the luminaire housing without any problems. Thanks to the unique mounting hook and the luminaire can be positioned in different applications. The light can also be mounted on a tripod to distribute the light over an even larger area.

Item no.	Description
333484	BALL LIGHT 50W
333485	BALL LIGHT 100W

Technical data

Input voltage	100-240V (50-60 Hz)
Light source	SMD LEDs
System output	50W / 100W
Luminous flux	5,000lm / 11,500lm
Light colour	6,500K
Beam angle	360°
CRI (colour rendering index)	Ra $\geq$80
Protection category (lamp)	IP54
Impact resistance	IK08
Housing	high-impact resistant plastic
Housing colour	black
Connection cable	5m H07RN-F 3x1.5mm^2 with IP44 Schuko plug
Schuko sockets	
50W / 100W	1 / 2
Weight	
50W / 100W	approx. 2.3kg / approx. 4.2kg

Work lights

FlexLED
Continuous rooflight on cable reel / on reel

Handle with integrated rubber band to lock the castor in place

The flexible and double-sided FlexLED LED strip light is the flexible alternative to conventional lighting. Quick and easy quick and easy suspension from ceilings, tunnel walls, scaffolding or in access areas, the respective work areas are optimally illuminated all round - without casting any shadows. The FlexLED is encased in a high-quality and durable clear PVC tube that is suitable for indoor and outdoor use (IP65). With a length of 10m on a reel and 50m or 25m on a cable reel, the continuous line is supplied ready for connection. It is connected using the supplied connection cable with contour plug. For maximum illumination of large, the FlexLED 230V continuous-row lighting system can be can be operated over a total length of up to 100 metres.

Product features - Emergency battery for FlexLED 230V
With the emergency power battery, the FlexLED can continue to be operated at reduced brightness for up to a maximum of 2 hours if the power supply is interrupted.

It has an internal built-in battery charge protection with protection against overcharging and overdischarging. The emergency battery is supplied with a 1.5 metre connection cable with a Schuko plug.

The battery status can be checked by pressing the illuminated push when the emergency function is switched on:

Number of red light flashes (blinking):
1× = 0 %-20 % remaining power
2× = 20 %-40 % remaining power
3× = 40 %-60 % remaining power
4× = 60 %-80 % remaining power
5× = 80 %-100 % remaining power

Please be sure to follow the instructions for use enclosed with the products!

Technical data - FlexLED 230V / 42V

LED	LEDs double-sided (2x180 LEDs/m)
System output	13 W/m / 8W/m
Luminous efficacy	1,500 lm/m / 920lm/m
